# Warranty for

# OPUS Pro Panels

Opus Pro panels distributed by Spring Valley Corp (SVC) and manufactured by Società Italiana Lastre S.p.A are warrantied against material defects for a period of 10 years when installed according to our specific guidelines.

Photos of the installation process are required to obtain the warranty to ensure proper installation of the panels occurred. The manufacturer guarantees the panels shall last for ten years before any defects compromise the manufacturer's regulations. All warranty claims must be made, in writing, within 30 days of discovering the defect. Claims made outside of that period will be waived.

SVC shall warrant only for such panels as that have not suffered damage from incorrect or careless storage, machining, application, or handling. SVC shall expressly not be liable for damaged that may occur as a result of the installation process as these are outside our influence.

This warranty does not cover variations or changes in colour tones that may occur as a result of the natural materials interacting with the environment.  Cement-based materials will patina over time and should be viewed as an enhancement to the appearance rather than a defect.

SVC excludes any damage going beyond the same, particularly consequential damage from defects such as loss of profit, expenses for de-installation and re-installation, etc.

This warranty shall not be modified or amended in any way without a written agreement that must be authorized and signed by SVC. Without express and written permission from SVC, no retailer or distributor of SVC products has the ability to modify to amend this warranty.
